Hello, I'm Hans. I discovered my passion for filmmaking at 16, creating videos in high school that revealed my calling. In 2011, I founded Green Light Productions and launched The Entertainer's Show, a platform for emerging performers. By 2016, I shifted my focus to commercial production with Vision to Images®, later becoming Vision to Images, LLC.

I've worked on numerous film and television productions, gaining hands-on experience in a variety of roles.
